

AUTONOMOUS ROADSHOW

Schedule*:

13 April - Adelaide
15 April - Sydney
17 April - Brisbane
1000 - 1130hrs local

Cratos Australia invites you to a live, invite only capability demonstration showcasing an integrated approach to autonomous ISR, persistent surveillance, counter-UAS and tactical communications.

This roadshow brings together leading platforms, sensors, communications, and software into a cohesive, operationally relevant system, designed for deployment across Defence, security, and critical infrastructure environments.

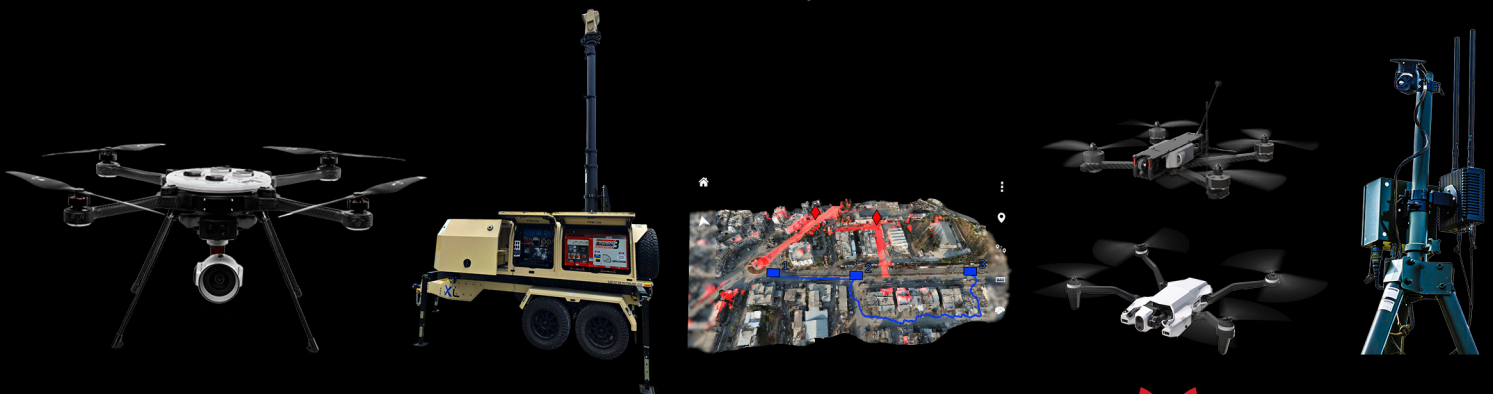

Featured Capabilities:

- SkyCarrier (Autonomous Launch and Recovery System)
- SkyRanger R70 (Blue-UAS Multi-Role aTactical UAS)
- Teal 3 “Black Widow” (Blue-UAS Small UAS ISR platform)
- Fang (Blue-UAS certified FPV platform)
- BigFoot (ruggedised power and sensor trailer platform)
- Identifi (Biometric capture at the edge)
- Farsight (rapid 3D geospatial analysis at the edge)
- HyphaONE Mini (encrypted satellite connectivity)

*RSVP for specific location details, timing & updates
